What will it take to get it done?

- Work through the power of state lawmakers
- Think clearly
- There is no concept of 'adequate' financing
- Goals are important, but success requires a method
- 'Systemic' need not mean 'comprehensive'
- Go where the most progress is possible
- Public education is a 'choice' system today

How quickly can it be done?

- If the leadership in K-12 decides to move . . .
- If the leadership job falls to the community

Things that are necessary tend to happen
